PROFESSIONAL SUMMARY

A highly motivated Computer Science undergraduate with a strong foundation in Artificial Intelligence, combining analytical problem-solving skills with practical experience in intelligent system development to deliver reliable, efficient, and high-performing solutions that ensure innovation and quality in real-world applications.

EDUCATIONAL BACKGROUND

• Bachelor of Computer Science and Engineering (CSE) <i>Green University of Bangladesh</i>	Graduated 2025 <i>CGPA: 3.21</i>
• Higher Secondary Certificate (HSC) <i>Gafargaon Govt. College, Gafargaon</i>	Graduated 2019 <i>GPA: 4.75</i>
• Secondary School Certificate (SSC) <i>Gafargaon Islamia Govt. High School</i>	Graduated 2017 <i>GPA: 5.00</i>

WORK EXPERIENCES

• Software Developer <i>DataSoft System Bangladesh Limited</i>	September, 2025 – Present
• SQA Intern, Remote <i>360 Pathshala</i>	October, 2025 – March, 2026

CAREER INTERESTS

- **Core Expertise:** AI Engineering, Large Language Models (LLMs), Agentic AI, and Intelligent Automation for scalable, production-ready systems.
- **Applied Research:** Developing LLM orchestration, RAG pipelines, LoRA fine-tuning, and AI agents for enterprise automation and optimization.
- **Long-term Goal:** Lead innovation in trustworthy AI architectures, agentic workflows, and end-to-end AI deployment at scale.

ACHIEVEMENTS AND AWARDS

- **Vice Chancellor's Award:** Honored with the **Vice Chancellor's Award** on a semester for academic excellence and contribution to university activities.
- **Dean's Award:** Honored with the **Dean's Award** on a semester for academic excellence and contribution to university activities.
- **SEO Certification:** Successfully completed the **Search Engine Optimization (SEO) Course** in **2022**, gaining proficiency in on-page and off-page optimization, keyword analysis, and content strategy to enhance website visibility and ranking.

LEADERSHIP & VOLUNTEERING EXPERIENCE

- **Organizing Secretary, Green University Prothom Alo Bandhusova:** Served as the **Organizing Secretary** of the Green University Prothom Alo Bandhusova, contributing to event planning, member coordination, and social welfare initiatives within the university community.
- **General Volunteer, Green University Computer Club (GUCC):** Actively participated as a **General Volunteer** in the Green University Computer Club (GUCC), supporting technical events, workshops, and inter-university competitions.
- **General Volunteer, Gafargaon Helpline, Mymensingh:** Worked as a **General Volunteer** for Gafargaon Helpline, assisting in community outreach, awareness programs, and social assistance activities.
- **General Member, Green University Computer Club & Green University Cultural Club:** Engaged as a **General Member** in both the Computer Club and Cultural Club of Green University, contributing to academic, cultural, and extracurricular initiatives.
- **COVID-19 Relief Activities:** Worked on the frontlines during the COVID-19 pandemic, supporting health and relief efforts in the Gafargaon as part of the Gafargaon Help Line emergency response team.

HOBBIES & INTERESTS

- **Hobbies:** AI Experimentation, LLM Fine-Tuning, Building Agentic Systems
- **Likes:** Tackling complex AI challenges, Automating workflows, Collaborating on innovative projects
- **Personal Note:** Avoid overthinking focus on execution and rapid prototyping

RESEARCH INTERESTS & ACADEMIC FOCUS

- **Academic Projects:** Led the **Cloud Computing Web Panel Project** as final year project at Green University of Bangladesh, focusing on server management, virtualization, and resource automation to optimize cloud system efficiency.
- **Core Interests:** Passionate about **AI Engineering & LLMs**, **Agentic AI**, and **intelligent automation**, exploring LLM fine-tuning (LoRA/QLoRA), AI orchestration, RAG systems, and production-ready AI models for scalable enterprise solutions.
- **Technical Proficiency:** Expert in **Python** with **LangChain**, **Hugging Face**, **FastAPI**; experienced in **Spring Boot**, **Docker**, **DevOps pipelines**. Actively building skills in AI system design, vector databases, and end-to-end ML workflows.

PROJECT EXPERIENCES

- **Emergency Ambulance Reservation Software**
 - **Tools:** HTML, CSS, JavaScript, PHP, MySQL
 - Developed a web-based system that enables users to instantly book nearby ambulances using live GPS tracking and driver availability status.
 - Implemented key features such as user and driver login, hospital lookup, real-time location mapping, and emergency booking management.
 - Applied SQA principles by designing test cases, executing functional and non-functional testing, and validating software reliability and performance.
- **Heal Point: A Healthcare Management System**
 - **Tools:** Android Studio, Java, XML, SQLite
 - Built a mobile application that streamlines healthcare operations including lab tests, doctor appointments, and digital health articles.
 - Implemented secure authentication, appointment scheduling, and patient information management using an embedded SQLite database.
 - Focused on user-friendly design, system reliability, and data security through structured testing and iterative improvement.

SKILLS

- **Programming Languages:** Python, Java, Spring Boot
- **AI & ML:** Large Language Models (LLMs), LoRA/QLoRA Fine-Tuning, Agentic AI, Generative AI
- **AI Frameworks & Tools:** LangChain, FastAPI, RAG Systems, Vector Databases (Milvus)
- **DevOps & Deployment:** Docker, CI/CD, Linux, Git/GitHub
- **Backend & APIs:** REST APIs, Spring Boot, Automation Testing
- **Soft Skills:** Leadership, Problem Solving, Strategic Thinking, Communication, Teamwork
